## ELECTRONIC SUBMISSION

November 3, 2011

Ms. Yvonne Meeks  
Portfolio Manager – Site Remediation  
Pacific Gas and Electric Company  
4325 South Higuera Street  
San Luis Obispo, CA 93401

Dear Ms. Meeks:

Subject: PG&E Topock Compressor Station Remediation Site – *Revised Groundwater Corrective Measure Implementation/Remedial Design Work Plan for SWMU 1/AOC 1 and AOC 10, PG&E Topock Compressor Station, Needles, California*

The Department of the Interior, on behalf of itself and the Bureau of Land Management, the U.S. Fish and Wildlife Service, and the Bureau of Reclamation (collectively referred to as “DOI”) has completed the review of the redline/strikeout version of the *Revised Groundwater Corrective Measure Implementation/Remedial Design Work Plan for SWMU 1/AOC 1 and AOC 10, PG&E Topock Compressor Station, Needles, California* (CMI/RD Work Plan) submitted by Pacific Gas & Electric on September 19, 2011. DOI believes that PG&E has been fully responsive to the provided comments on the CMI/RD Work Plan and to the agreements made during comment resolution. DOI approves the Revised CMI/RD Work Plan issued November 2, 2011 for use in development of the groundwater remedy design documents and associated plans.

As stated in the work plan, the level of project definition will increase during the remedial design phase. DOI acknowledges that several elements within the CMI/RD Work Plan are preliminary in nature. Our approval of the work plan is non-binding with respect to these elements and we look forward to working with you as the project is further refined.

Ms. Yvonne Meeks
