**Subject:** Re: Request for Combined Reporting of Topock GMP and PMP

**Attachments:** ConsolidPMP-GMPReporting.pdf

Jay and Yvonne,

DTSC has evaluated PG&E's proposal to combine the quarterly and annual Groundwater Monitoring Program (GMP) reports with the quarterly and annual Performance Monitoring Program (PMP) reports for the Interim Measures. DTSC agrees with the merits of combining the GMP and PMP reports and hereby approves the request as proposed beginning with the upcoming second quarter 2009 PMP reporting period. Although the proposed outline of the combined report as attached to the May 13, 2009 request appears to be adequate, DTSC will review the pending submission and notify PG&E if adjustments are necessary.

If you have any questions regarding this approval, please feel free to contact me.

Sincerely,

Aaron Yue  
Senior Hazardous Substances Engineer  
Geological Services Branch  
Cypress, California

Aaron,

On behalf of PG&E, enclosed is a letter requesting that the quarterly and annual reporting currently submitted as separate deliverables under the Topock Groundwater and Surface Water Monitoring Program (GMP) and the IM Performance Monitoring Program (PMP), be combined into common report submittals incorporating both programs.

Thank you,

Jay Piper, CEM, PG  
Project Manager
