<td>Question 2</td>
<td>There were no storm events that resulted in discharge of stormwater from the site during the July 1, 2016 through June 30, 2017 period; therefore, no stormwater samples were collected. In general, discharge of stormwater from the facility did not occur due to the arid climate, drainage properties of soil at unpaved areas, and pumping of storm water collected on the concrete treatment pad into the treatment facility. During rain events, when safe, the site was walked to observe and monitor discharge locations.</td>
